East of Nakba (68)

Part III. Chimera

Chapter 68 Invasion into human body (3)

Dr. Girgo's purpose of experiment was to eradicate the Palestinians from the earth. In other words, it was ethnic cleansing of the Palestinian people. The gene of Galaxy was manipulated and transformed into Chimera so that it would eat up ova of Palestinian women. As a result, Palestinian women lost their fertility. Palestinians would be extinct after several generations.

At the time, the movement to expel the Palestinians from the land of Canaan was gaining momentum. The most radical method was ethnic cleansing. There was a tendency to accept the method of Dr. Girgo. It was prevailing in some parts of Israeli authority.

The work of rewriting Galaxy's genes was actually beyond Dr. Girgo's control. Galaxy vehemently resisted the artificial cutting and reconnection of its genes, trying to keep its original figure. However, once the genetic information was cut, it was perfectly impossible to restore the original figure. Galaxy had become a mutant. The Chimera emerged on the earth.

Dr. Girgo got the Chimera mutated from the Galaxy. Girgo couldn't replicate mutations. However, it was possible to multiply the Chimera. In a test tube in his lab, the one and only ethnic cleansing creature began to multiply.
