East of Nakba (83)

Epilogue (2)

Chapter 83 Mission of Neo Galaxy

The Neo Galaxy landed on the Earth shortly after the Chimera prevailed. Neo Galaxy was sent to the Earth by the Creator through the body of the astronaut Moshe.

Neo Galaxy and Chimera battled fiercely for the survival. It was more powerful than the Chimera, and gradually replaced the Chimera. Neo-Galaxy had mild symptoms than the Chimera. The Neo Galaxy inhabited the human body quietly and steadily.

It was declared that the pandemic was over. Human beings had regained their original calm life. However, Neo Galaxy influenced to human beings by stealth. The Creator gave a new function to Neo Galaxy. It suppressed the reckless breeding of humans.

The Creator eliminated the Chimera which eat up human egg cell. He gave Neo Galaxy the role of properly maintaining human fertility. This put an end to reckless proliferation of human beings. It allowed human beings to coexist with other creatures. It also ensured the comfortable living condition for Neo Galaxy, parasite of human beings. A peaceful balance was about to be created between human beings, other creatures, and the Neo-Galaxy.

The fertility rate had been declining both the Middle East and the developed countries in Western Europe. The same trend appeared in developing countries such as Asia, Africa and South America. Sociologists had suggested that it was an inevitable path by human beings who looked for a

prosperous life.

It was true in some meanings. The true reason, however, was that the Neo Galaxy was parasitic on human beings and began to control their reproductive functions. The thought of the Creator was far beyond that of human beings.
