East of Nakba (13)

Part I. Israel bombs a nuclear plant in Iran

Chapter 11. Secret Operation of Saudi Arabia (3)

"Listen carefully, my dear son! Development of nuclear weapons by Iran is a serious threat to the Kingdom. Persians of Shiite are more dangerous enemy than the United States, European countries or Israel."

"Israel declared to defeat our enemy, Iran. Let Israel do what it wants. That will put out one of our headaches. The Jewish-Persian conflict will automatically bring win for Arabs. We can profit from the situation. "

Cynical laugh of defense minister was leaked over the handset. Prince Turki has been accustomed to that voice since he was a boy. He didn't like that voice even now. His father was already defense minister when Turki was the commander. His father kept his position until now. He used all his tactics to keep his position. Whenever he climbed up the stairs of power, he laughed like he did today.

In contrast, his son, Turki, was born with a silver spoon in his mouth. He grew up with a cheerful and open-minded personality. His friends roared with laughter when the prince joked. When he studied abroad in the United States as a trainee of jet fighter, his straightforward personality was favored by his American colleagues. US military personnel used to love cheerful and open-minded guy.

Furthermore, Americans privately aspire the royal establishment. They feel happiness to be friends with a noble people because there were no native princes in the United States. Prince Turki has been selected as stable mates. He was still associated with them.

The defense minister continued talking. He could not understand his son's feelings.

"Washington has conveyed another request from Israel. It's the job of you and your soldiers."

Defense minister instructed his son Turki something. The commander's face immediately flushed up.

"OK. Father."

He answered and hung up his cell phone. He ordered his subordinates around him.

"Falconry is over. I will return to the base immediately. Ask the main staffs to gather in my room. There will be an important meeting in 30 minutes from now."
